

LANDOWNER INTEREST FORM

Landowners or land managers interested in participating in the Monarch Butterfly Habitat Exchange can fill out the Landowner Interest Form below. Submitting this form provides basic information about potential habitat enhancement, restoration or conservation projects to the Monarch Butterfly Habitat Exchange. Submitting this form does not commit landowners to any action. Since interest in participation is high, we cannot respond immediately to all of the forms we receive. Please know that a response from Exchange staff does not guarantee that a project will ensue.

The Exchange is currently focused on developing habitat enhancement, restoration and conservation projects in Texas, Missouri and California. However, we encourage landowners outside these states to submit a form so that Exchange staff may keep them informed of opportunities to participate as they become available.

PROPOSED PROJECT INFORMATION

Do you have an area in mind for habitat enhancement, restoration or conservation? If so, please briefly describe the project:

Please provide additional information about your project area:

Size:

County:

Current land use:

How can the Exchange help with your project?

Are you willing to share your project with others? Willingness to share information generally enhances opportunities for funding

- Yes! I'm willing to be featured on the Exchange website and invite stakeholders to see my successful project in-person.
- Yes, but I'm only willing to be featured on the website.

No, I'd prefer to keep my participation confidential. Note: A minimum amount of project information must be disclosed on the Registry in order to participate.

Undecided. I would like to learn more before making a decision.

How did you first learn of the Exchange? (Please Specify)

Thank you for your interest in the Monarch Butterfly Habitat Exchange!
